- krszbarna@gmail.com
- linkedin.com/in/karaszbarna
- github.com/Kaba0808

Skills

- Programming Languages**
 - C, Java, Python
- Database Management**
 - MySQL, phpMyAdmin
- Web Development**
 - HTML, CSS, PHP
- Robotics**
 - ABB, RobotStudio
- Tools & Platforms**
 - MATLAB, Git, L^AT_EX

Skill Levels

Introduction

Third-year Computer Engineering student with a curious mindset and strong problem-solving abilities. I enjoy thinking in systems, acquiring new knowledge, and developing creative solutions to emerging challenges. My focus is consistently on delivering practical and functional solutions.

Projects

- Grant Management System** 2024 Database Systems
 - Implemented a 3NF-compliant MySQL database with complex SQL queries
 - Developed a PHP backend with automated status tracking and document management
 - Role-based access control for administrators and project managers
- Full-Stack Web Development** 2024 Web Technologies
 - Responsive HTML5/CSS3 front end with cross-browser compatibility
 - PHP back end architecture with MySQL database integration
- Museum Ticket Purchasing App** 2025 Mobile Application Development
 - Android ticketing application with Google API and Firebase integration
 - Material Design UI implementation following Android design guidelines
- Tower of Hanoi – ABB Industrial Robot** 2025 Robotics
 - Industrial robot programming using RAPID language
 - Algorithm implementation and motion path planning in RobotStudio

Professional Experience

- IT Coordinator and Support Specialist** 2024 Ozora Festival
 - Provided assistance and coordination for international attendees during registration processes
- Interdisciplinary Conference Organizer** 2024–2025 Móra Academic College
 - Conference organization and participant coordination

Education

- BSc in Computer Engineering** 2023–Ongoing University of Szeged
- High School Diploma** 2019–2023 Cistercian Order Nagy Lajos High School
 - Extended curriculum in Computer Science and Mathematics
 - Advanced-level Mathematics examination, Physics specialization

Relevant Coursework

- Fundamentals of Programming (C)
- Programming 1 (Java)
- Database Systems
- Mobile Application Development
- Microcontroller Application Laboratory (C)
